

You are kindly invited to participate to the **2020 CSG Industry Days**, which will be held on **Thursday 8th and Friday 9th of October 2020**.

Due to the coronavirus outbreak, the event is organized online instead of taking place on ESA's premises in HQ-Daumesnil, Paris.

During the online 2020 CSG Industry Days, companies can attend, via the **web-streamed workshops**, the activities to be carried out at the CSG Launch Range in the coming years. The presentations will focus on the **Core Launch Range Renewal programme**, enhancing the availability, the reliability and the flexibility of the Launch Range as well as reducing the costs, and on the **Extraordinary Maintenance plan** to be implemented by CNES/CSG over the next 3 years.

This event aims to foster the participation of European industry in the CSG Launch Range activities. During this 2-day event, companies can attend pre-scheduled **business-to-business meetings (B2B)** via the online platform.

We would be grateful if you could confirm your participation by email to CSG_IndustryDays@esa.int specifying the names of participants from your company.

Participation is free of charge and **a company registration is required on the link below not later than Monday, October 5th 2020**.
